

**SOUTH VALLEY SEWER DISTRICT
JORDAN BASIN WATER RECLAMATION FACILITY**

**NOTICE OF PROPOSED SOLE SOURCE
PROCUREMENT**

THIS IS NOT AN INVITATION FOR COMPETITIVE BIDS OR FOR PROPOSALS

The Utah Code and the Procurement Policy of the South Valley Sewer District (“SVSD”) provide that sole source procurements may be used under limited circumstances such as: (a) there is only one source for the procurement item; (b) transitional costs are a significant consideration and a cost-benefit analysis demonstrates that the award to a sole source is in the best interest of SVSD; or (c) circumstances render a standard procurement process impractical and not in the best interest of SVSD.

The Procurement Officer of the SVSD has received a request to make the following sole source procurement for replacement parts and components for the JWC Environmental In-Channel Grinders utilized at the Jordan Basin Water Reclamation Facility and South Jordan Pump Station, and gives public notice of the same. The purpose of this notice is to provide public notice as required by law and to determine whether there are other interested and qualified vendors that meet the requirements of SVSD for the proposed sole source procurement.

Product and/or Service to be purchased: Replacement parts for JWC In-Channel Grinders including bearings, seals, spacers, drums, grinder teeth, drive shafts, gear reducers, couplers, o-rings, fittings, Class 1 Div 1 electric motors, and other wear parts.

Contract Duration: March 2024 through March 2029.

Proposed Sole Source Supplier: JWC Environmental. 2850 S. Red Hill Avenue Ste 125, Santa Ana, California, 92705.

Estimated Total: Approximately \$90,000 for rebuild kits of two grinders, roughly two rebuilds with associated parts per year. Price includes cost of parts and shipping.

Sole Source Justification: For the following reasons, and based on research performed by the undersigned, the District has determined this purchase will utilize the sole source procedures authorized by the Utah Procurement Code:

- JWC is the Original Equipment Manufacturer (OEM) for replacement parts. There is only one source for these parts.
- No supplemental, alternative, or aftermarket parts are available for these in-channel grinders
- Parts, including electric motors, are proprietary and unavailable through alternate sources.

Dates and Deadlines: The following dates and deadlines shall be followed by SVSD and by any person responding to this Notice:

Notice Start Date:	February 23, 2024
Notice End Date:	March 1, 2024
Deadline for Comments and Contests:	March 1, 2024 at 4:00 p.m.
Earliest Date for Purchase:	March 4, 2024

Action to be Taken: No action is required if you agree this proposed purchase is a valid sole source procurement. If you wish to comment or request additional information, or if you wish to contest this proposed sole source procurement, you are required to deliver your written comments, requests or contests to: Joel Thompson, District General Manager/Procurement Officer as follows:

By Hand Delivery:	Procurement Officer, South Valley Sewer District 1253 West Jordan Basin Lane Bluffdale, Utah, 84065
By Mail:	Procurement Officer, South Valley Sewer District P.O. Box 629 Riverton, UT 84065
By E-mail:	joelt@svsewer.com

Comments, requests for information and/or contests to this procurement shall be received by SVSD on or before the date and time identified as the “Deadline for Comments and Contests” listed above. *Failure to contest this proposed sole source procurement on or before this deadline will preclude any challenge to this proposed procurement.*

Instructions for Contests: If you contest this procurement, you are required to submit the following information: (a) your name and contact information, to include a mailing address and e-mail address; and (b) a detailed explanation of the reasons you contest the proposed sole source procurement, including a documentation showing that there are other competing sources for the parts and services required by SVSD. The detailed explanation may also provide written documentation that the alternative parts and services meet or exceed the performance requirements of the proprietary parts and services required by SVSD, and any other information that is relevant to this matter. Matters not addressed in writing in a contest to this procurement will not be considered by SVSD, and will not be considered in any appeal.

All comments will be evaluated before further action is taken on this proposed procurement. All contests will be duly investigated to determine the validity of the contest and a written determination will be made either supporting or denying the challenge.

Inasmuch as this is a notice of a sole source procurement, quotes, bids or proposals will not be considered by SVSD.

A copy of information related to this sole source procurement will be made available for public inspection, upon request, at the main office of SVSD at 1253 West Jordan Basin Lane, Bluffdale, Utah, 84065.

Dated: February 23 , 2024

South Valley Sewer District

 /s/ Joel Thompson
General Manager and Procurement Official
